WeGo to host virtual North Nashville Transit Center Community Event

NASHVILLE – On May 22, WeGo Public Transit is hosting a virtual community engagement event featuring the North Nashville Transit Center. The event will be streamed via Facebook Live and will include discussion on the impact of public transit, how community members would like to interact with new planned services, and how WeGo Public Transit can best serve Nashville residents now and in the future.

Learn more about the event at <https://www.facebook.com/WeGoTransit>. Comments can be shared during the event in the comments section, at [@WeGoTransit](https://www.facebook.com/WeGoTransit), or 615-862-5950.

What: North Nashville Transit Center Community Event

Where: 2501 Clarksville Pike, Nashville, TN 37208

When: May 22, 12:30 p.m. CDT

About North Nashville Transit Center

The planned North Nashville Transit Center will be a safe and friendly location for community residents and transit passengers to access transit and to comfortably and conveniently transfer between routes and modes of transportation. The new neighborhood mobility center concept is designed specifically to create and enhance multimodal transportation options and connections in North Nashville, improving access to jobs, health care, and other services. Nearly 22 percent of residents live in zero-vehicle households; the highest percentage of transit-dependent residents in the Nashville MSA and substantially higher than the national average of 7.9 percent.

About WeGo Public Transit

The Nashville Metropolitan Transit Authority (Nashville MTA) and the Regional Transportation Authority (RTA) are operating bodies of WeGo Public Transit, which serves 26 local bus routes, eight regional bus routes, and one train serving Davidson and Wilson Counties.
